

Miss Wilkes

Year 2 Class Teacher

I have always wanted to be a teacher, because I love working with children. It was, therefore, a very easy decision to study a degree in 'Primary Education' at university. I decided to spend an extra year studying to specialise in 'Primary Humanities' and earn a Master's degree. I have been a teacher at Bursley for four years and I enjoy working here. Every day, I love to see lots of smiling faces in my class and around the school.

My favourite subjects to teach are geography and history. The children often enjoy these lessons and ask lots of interesting questions. I aim to make my lessons fun and engaging for my class.

I love sports, in particular: football, swimming, netball and cricket. I support Stoke City and have a season ticket to watch the matches.

THIS or THAT...
